

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

Printed in Germany.

## KEY TO THE REGISTER.

The Stores of Vessels are designated by the Figures 1 and 2:—

1. Signifying that the Vessel is well and sufficiently found.
2. That she is deficient in either quantity or quality.

Vessels **RESTORED** to, or **CONTINUED** on the Character A, will have the number of Years for which they are Restored or Continued, with the name of the Port of Survey, inserted separately under the number originally assigned, in the twelfth column; thus—Rest. Lon. 72-5 yrs, or Cont. Liv. 72-3 yrs. Where the term in the case of continuation has expired, the Letter "C" only will be placed before the figure denoting the number of Years for which Continuation had been allowed; thus—C 3.

The Port where a vessel has been either Specially Surveyed, Continued, or Restored, is mentioned in the same column as the fact and date of such Special Surveys.

Vessels opened as required by the Rules, will be marked in the Register "S.S." with the number of years that may elapse before they are again opened, and the year of survey; thus—"S.S.Cly. 74-4 yrs—"

Vessels marked "S.S." with a date, in red, denote that they have been surveyed at that time in accordance with the Rules, Section 60; thus—"S.S.Sld. 74-5 yrs" (in red ink).

The mark [B.S.] denotes that the vessel is classed subject to *Biennial Survey*. The mark [Expt. B.S.] denotes that the vessel is built *Experimentally*, and classed subject to *Biennial Survey*. (See Section 31.)

The mark *t.s.* with a date, denotes that the vessel has been submitted to Triennial Survey as prescribed by Rules for Iron Ships; thus, *t.s. 72*.

The marks *s.s.Nwc.No. 1-74*—*s.s.Hul.No. 2-74*—*s.s.Lon.No. 3-74* denote that the vessels have been submitted to periodical surveys, as prescribed by Rules for Iron Ships.

The figures in the twelfth column, to vessels in the *A* class, imply that they were originally classed A, for that number of Years. The cipher 0 in this Column indicates that (from inferior construction) there were no "number of Years first assigned."

The broad  $\Delta$  signifies that the Vessel is built of Iron.

The note \* prefixed to  $\Delta$ , thus—\* $\Delta$ , signifies that the Vessel has been built with heavier plating than the Rules now require.

Ships built under Special Survey will be shown by a Cross; thus,  $\times$ . (See Section 23.)

### In the Second Column.

Bk ..... Barque	G ..... Galliot	Scw ..... Screw	Sr ..... Schooner
Bkn ..... Barquentine	H ..... Hoy	Sk ..... Smack	St ..... Schoot
Bg ..... Brig	K ..... Ketch	Sp ..... Sloop	Stm ..... Steamer

A.A.C.P.—Anchors and Chains proved at a Public Machine.

## KEY TO THE REGISTER—*continued.*

### *In the Thirteenth Column.*

The character A denotes New Ships, or ships Continued, or Restored. (*Vide* Sections 34 and 54 to 59 of the Rules.)

The character A, in Red, denotes ships which have passed the period assigned on the original Survey, or Continuation, or Restoration, and ships, not having had an original character, provided they are found on survey of superior description, fit for the conveyance of dry and perishable goods, *to and from all parts of the world.* (*Vide* Section 60 of the Rules.)

The character *A* denotes ships which have been found on Survey fit for the safe conveyance of dry and perishable goods on *shorter voyages*, and for the conveyance of cargoes *not* in their nature subject to sea damage on *any voyage.* (*Vide* Section 61 of the Rules.)

The character E denotes ships which have been found on Survey fit for the conveyance of cargoes *not* in their nature subject to sea damage on *any voyage.* (*Vide* Section 64 of the Rules.)

The character I denotes ships which have been found fit to carry on coasting voyages cargoes *not* in their nature subject to sea damage. (*Vide* Section 66 of the Rules.)

### FOREIGN BUILT SHIPS.—CLASSES F. (*Vide* page 39 of the Rules.)

The character 1 F denotes ships which have been found on survey to be of a superior description, fit for the conveyance of dry and perishable goods to and from all parts of the world.

The character 2 F denotes ships which, although not equal to the foregoing, have nevertheless been found on survey to be in a good and efficient condition, and fit for the conveyance of dry and perishable goods, on shorter voyages.

The character 3 F denotes ships which have been found on survey fit for the conveyance of cargoes *not* in their nature subject to sea damage.

The Figures under a Character denote the date when the Vessel was last surveyed.

*When printed in Red (except in the case of Vessels classed A 1 in Red), they indicate that the survey has reference to the Stores only.*

When a black line appears with a date under it in the thirteenth column, thus 2,74  
it indicates that, at the date stated, the Vessel, either from defect or non-compliance with the Rules, was not entitled to a Character in the Register Book.

### EXTRACT FROM SECTION 59 OF THE RULES.

\* The terms of years assigned to Ships on the Character A, launched *previously to the 1st July, 1859*, also of ships launched during the *first* six months of the years 1860, 1861, 1862, and 1863, will expire on the 31st December of the last year of the periods assigned to them respectively.

The terms assigned to ships launched during the *last* six months of the years 1859, 1860, 1861, and 1862, will expire on the 30th June next after the last year of the periods assigned to them respectively.

In the case of ships launched on and after the 1st July, 1863, the period originally assigned to them on the A 1 character, will in every case *date from the month* in which the vessel may be launched, and will expire at the end of the corresponding month in the year at which the period assigned terminates.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

The \* signifies that the Vessel has been built under Special Survey. The broad A signifies that the Vessel is built of Iron. The note \* (thus \* A) signifies that the Vessel has been built with heavier plating than the Rules now require. B. Hds. Bulkheads. Com. Cemented. Asp. Asphalting. 1, 2, or 3 Dks. one, two, or three Decks laid. 1, 2, or 3 tr. B. One, two, or three tiers of Beams with or without Decks on them. F. D. Flush deck. R. Q. D. 80 ft. Raised quarter deck 80 feet long. B. D. 30 ft. Bridge deck 30 feet long. P. 30 ft. Poop 30 feet long. F. 30 ft. Forecastle 30 feet long. For Engines the figures indicate the Diameter of Cylinders, and Length of Stroke in inches, and the Horse power as per Ship's Register. Comp. Compound. Oscil. Oscillating. D. A. Direct action. H. Horizontal. I. Inverted. Vr. Vertical. s. c. Surface condensing. N. B. 73. New boilers 1873. H. P. Horse Power. M. C. Machinery certified. s. s. Special survey.

The **R** signifies that the Vessel has been built under Special Survey. The broad **A** signifies that the Vessel is built of Iron. The note **AE** (thus **AE**) signifies that the Vessel has been built with heavier plating than the Rules now require. **B.Hds.** Bulkheads. **Cem.** Cemented. **Asp.** Asphalting. 1, 2, or 3 **Dks.** one, two, or three Decks laid. 1, 2, or 3 **tr.** One, two, or three tiers of Beams with or without Decks on them. **F.D.** Flush deck. **R.Q.D.** 30 ft. Raised quarter deck 30 feet long. **B.D.** 30 ft. Bridge deck 30 feet long. **P.** 30 ft. Poop 30 feet long. **F.** 30 ft. Forecastle 30 feet long. For Engines the figures indicate the Diameter of Cylinders, and Length of Stroke in inches, and the Horse power as per Ship's Register. **Comp.** Compound. **Osc.** Oscillating. **D.A.** Direct action. **H.** Horizontal. **I.** Inserted. **Vr.** Vertical. **s.c.** Surface condensing. **N.B.73.** New boilers 1873. **H.P.** Horse Power. **M.C.** Machinery certified. **s.s.** Special survey. (See other side.)
